29 May 2015

To whom this may concern:

We are an internationally recognized architecture and design firm dedicated to innovation and excellence in design. Our work is published widely and we have been recipients of many local and international awards. This could not be achieved without the efforts of a team, both in design and construction, and Ira Idzkowski of Torcon has been an integral part of our success in the realization our projects.

Since our introduction through a client in 2010, Mr. Idzkowski and his team has been our Project Manager/General Contractor of choice, as we have retained his company nearly exclusively on our projects.

His involvement included project management and/or general contracting services for office, retail and residential projects. Projects include expansion to advertising offices of Grip Limited, Mosaic and Zulu Alpha Kilo, expansion and renovation to Canadian headquarters of Red Bull Canada and a showroom for a diamond jewellery company !Xam. For our development projects Torcon completed two Condominium Sales Centres for Freed Developments, Sixty Colborne and 155 Redpath.

Mr. Idzkowski and his team have proven through their work to be timely, efficient and most of all, conscientious. His patience and dedication to the craft is exemplary, facilitated by his extensive knowledge of construction process, material and methods.

We highly recommend Mr. Idzkowski and his team.

Please do not hesitate to contact me if you have any questions.
