To whom it may concern,

Re: Ira Idzkowski, Torcon Div. of Aliya International Inc.

Torcon was hired to construct the sales center for Freed Developments' Sixty Colborne condominium project in October 2011. This free standing, 3,000 sq. ft. structure was completed on schedule under a tight five month time frame. This allowed our company to achieve a successful market launch in March of 2012. The company's commitment to keeping the project on schedule and within budget was impressive.

The Torcon team was able to handle last minute changes in project scope and maintained professionalism throughout the course of the project.

I would certainly hire Ira and his team for another project with similar scope and scale in the future.

Yours truly,
